This warranty does not cover warrantable failures due to pre-existing damage to vehicles. 4U2C Signs cannot guarantee colour matching in the event of a repair to a vehicle due to Zone 3-UV conditions NB: 2% fade per annum on all pigmented films.

Due to the varied nature of vehicle body shapes and styles, it is possible that a particular vehicle will have areas that are beyond the wrapping capabilities of the available materials. These areas are noted as 'compound areas' and are excluded from this warranty. 'Compound areas' include such areas as deep recesses, deep channelling and severe ridges that cannot be wrapped due to the realistic capabilities of the vinyl materials used in the wrapping process. Any 'compound areas' will be noted by 4U2C Signs in consultation with the client prior to the job beginning. Any graphics failures over a compound area will not be covered by this warranty.

On removal of vinyl, 4U2C Signs cannot take responsibility for any damage caused to paint work, should the car be older than 3 years at the time of branding, and subject to the following:

1. That 4U2C Signs has stripped the vehicles (additional charge).
2. The vehicles must be accident free at the time of branding.

4U2C Signs cannot take responsibility for the wrap or branding on plastic areas of the vehicle, as vinyl doesn't adhere as well to plastic as opposed to metal.

In case of a warrantable failure, 4U2C Signs' responsibility is limited solely to, as its option, repairing or replacing the defective branding or parts of branding.
